✓ We need to throw a punch, so they know what it feels like to be hit. ★ ★ ★ ☆

Special Features: 5/5

Feature length Audio Commentary by Roland Emmerich

Features:

Getting it Right: The Making of Midway (14:16) – Behind the scenes, well worth your time

The Men of Midway (12:24) – The actors talk about the roles they play and their historic influence

Roland Emmerich: Man on a Mission (4:57) – Emmerich and the screenwriter on what they went through to get this made

Honestly this is one of the best batches of extras I've seen from Lionsgate in a while. They reported as showing in 4k on my system, I could not tell if that was native or upscaled.
